■ What Does This Recommendation Tool Do?

Planning to take a course and aiming for a specific score? 🎯

This tool helps you choose the right **lecturer** to reach your goal.

Just enter the course you want to take **and** the score you're aiming for. Based on performance patterns from past students, our system will recommend the lecturers most likely to help you achieve your desired result — **and even show the predicted scores you might get with each lecturer.**

💡 **Use Case:** "I want to take Data Structures and aim for a 90. Which lecturer can help me get there?"
